Authorized to work in Canada until August 2026 | Actively seeking full-time opportunities

Profile Overview

Full Stack Developer with 5+ years of experience delivering AI-driven SaaS platforms and leading end-to-end web application development. Specialized in Laravel, React/Next.js, Node.js, and AWS. Proven track record building scalable, data-intensive systems, integrating generative AI, and implementing payment solutions. Skilled at leading cross-functional teams, managing cloud infrastructure, and developing AI-driven automation and learning products across Canada and Latin America.

Work Experience

Rise Baking Lab | Canada (Remote) | Full Stack Developer (Freelance)

Jun 2025 – Oct 2025

- Built an AI-assisted e-learning platform for baking courses with dynamic content and performance analytics
- Implemented Stripe for payments, memberships, and subscriptions
- Integrated AWS-based automation pipelines
- Designed dashboards & portals with Laravel 12 + Tailwind

Conecta al Campo | Mexico (Remote) | Full Stack Developer Coordinator

Oct 2023 – Dec 2024

- Led a SaaS HR & job platform, reducing recruitment processing time from 40 hours to 8 hours
- Integrated ChatGPT & Google APIs to streamline recruitment workflows, automate role descriptions, and candidate scoring, saving recruiters 2–3 hours per role on writing and candidate screening
- Improved recruiter efficiency by 80% through workflow automation and AI-based text generation
- Managed a fully remote development workflow across time zones while relocating internationally, ensuring 0 downtime and on-schedule delivery of all milestones

Universidad Santander | Mexico (Remote) | Full Stack Developer

Sep 2022 – Jan 2024

- Built coupon/reward systems, increasing weekly sign-ups by 100+
- Optimized SQL queries, improving load times from 13 seconds to 1 second (92% improvement)

Hartwegii Capital | Mexico | Full Stack Developer & Team Lead

Aug 2019 – Aug 2023

- Directed a team of 4 developers, managing multiple projects using Asana
- Developed a digital business card platform and a tourism ticket system in Laravel
- Created the NIVO Android app with Bluetooth coordination and ML-based proximity detection (80–90% accuracy)
- Designed hardware-software integrations for enhanced Android and iOS experiences
